

Enroll and Administer with Ease

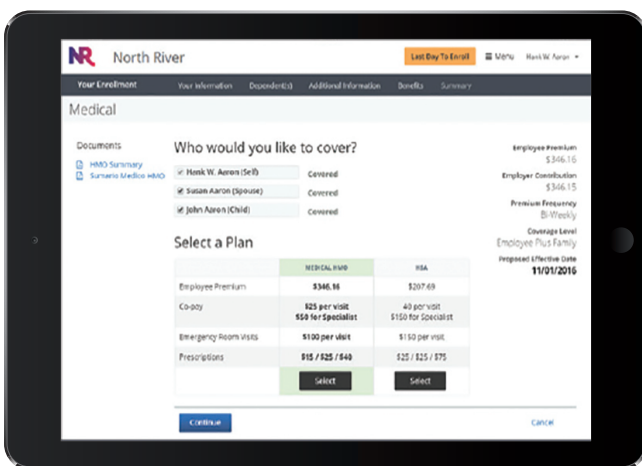

Open Enrollment + Year Round Benefit Administration

What to expect from 5Star Enroll

5Star Enroll, powered by Common Census, is the secure, web-based system for open enrollment, new hires, benefits administration, and private exchanges. One cohesive system to enroll and administer benefits for year-round administration or a simple one-time open enrollment tool.

A truly scalable solution, 5Star Enroll gives you the power to administer cases with an unlimited number of locations, divisions, and classes making it easier to have multiple parties collaborate to administer, enroll, and export data — all while you maintain complete control.

Simple year round benefit administration

Handle open enrollment and benefit administration including life events.

Employee self service enrollment

Every change made by an employee is subject to review by an administrator.

Dynamic benefit statements

Employees can see their full benefit statement including hidden paycheck value.

Configurable exports

Easily create and run exports to payroll, carriers, and vendors.

5Star Enroll, powered by Common Census, enables you to enroll and administer any core, voluntary, or administrative benefit through a branded private exchange.

Help employers connect the dots

Right now, they're not engaged.

Only 1 in 4 employers care about higher participation rates.*

Even if they know benefits are important.

7 in 10 employers believe it's important to convey the value of benefits.*

But **engaged employers** result in **engaged employees**.

And **engaged employees** are more likely to become **active consumers**.

Move from the filing cabinet to the cloud

The 5Star Enroll platform eliminates the need for repetitive data entry: make a change in one place and see it populate across mapped forms. And for those who desire them, print versions of all forms are available.

Custom business rules & eligibility

Administrators can create custom benefit packages and manage enrollment by individual or by group.

Total administrator oversight

Administrators maintain full control with tools to review and approve change requests.

Electronic data feeds

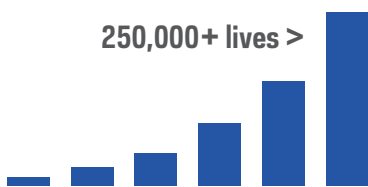

Rest assured knowing that vital data is sent to insurance carriers securely and on schedule.

A Self Service platform that empowers users.

Individual self service with decision support tools and Video Coach effectively guide users through enrollment. Customized plan information and administrator oversight keeps data current and accurate. Enrollment in core and voluntary benefits is available in English and Spanish.*

* Availability based on carrier participation.

Measures up to your scale.

With cases ranging from less than 10 employees to over 250,000 individuals, the platform has the flexibility and strength to be a simple tool for small organizations and a comprehensive enterprise solution suitable for hospital networks, municipalities, private industries and unions.

Case process

- 1 Introduction** - Schedule a product demonstration with a member of our sales team.
- 2 Case Setup** - A case implementation team member will be your point of contact from here. They guide you through the steps from gathering information to the delivery of electronic files and if needed, direction for offline enrollment too.
- 3 Upload Information** - We provided a secure, HIPAA compliant support site to exchange all case documents and information with all team members (HR, broker, enroller, payroll, etc.).
- 4 Case Building** - Build your own or 5Star builds the case and releases to all authorized parties for testing and approval.
- 5 Training & Case Deployment** - A team member will provide case training to the enrollment manager before the enrollment launches.
- 6 Post Enrollment Services** - Working with you, we can provide post-enrollment data: Excel Exports, Payroll Export, EDI Launch, Enrollment Forms.
- 7 Cases with Benefit Administration** - The platform can be configured to automatically send enrollment data for our Collaborating Carrier products. You may choose between running an Excel export that you or your staff transfer to the carrier, or you can have Common Census create an EDI for easy communication. New hires can be added administratively one-by-one by your team at no cost, or via a periodic census imported by Common Census staff for an additional fee.

Leverage 5Star Enroll to manage an enrollment from start to finish with comprehensive tools for benefit setup and decision support, new hire eligibility management, data exports and more. Use 5Star Enroll for year-round administration, or a simple one-time open enrollment and benefit communication tool.
