

Are you ready for the UNEXPECTED?

Accidents happen. Most people never think an accident can keep them out of work, and some aren't prepared financially if something happens. An illness or injury could keep you from earning a paycheck and potentially cause you financial pain.

Think about everyday expenses

Child Care

Mortgage

Car Payment

Utilities

Plus the recovery time and cost for an average American following an accident

Up to 5 days spent in the hospital.¹

Can spend up to \$5,000 on out-of-pocket costs even with medical coverage.²

5Star Life Insurance Company (5Star Life) Accident Insurance could help make your recovery a little less painful

Coverage without coordination of benefits

Benefits paid directly to you

Wellness benefits promote preventative care

Encourage and reward utilization of your annual wellness

Here's how the coverage works

The coverage provides cash benefits for treatment received for a covered accident including emergency room and urgent care office visits, physician treatment and hospitalization.

The benefits you receive:

- Are paid directly to you to help cover any unexpected expenses during recovery – including childcare and other non-medical bills.
- Guard against potential extra expenses created by deductibles and co-pays that add up quickly.
- Are not reduced by or coordinated with any other policies, including major medical coverage.
